

MEMBER BENEFITS

The World Heart Federation (WHF) is the world's only global body working in official partnership with the World Health Organisation (WHO) dedicated to leading the global fight against cardiovascular disease (CVD) with a focus on low- and middle-income countries, via a united global community of more than 200 member organizations. Our work aligns around the WHO's target of reducing premature CVD mortality by at least 25% by 2025.

Only by working together to create a powerful movement can we influence national and global health agendas delivering long term sustainable change. **Benefits of membership include:**

Influence

- Be part of WHF's united global movement.
- Provide strategic input into local, national, regional and global health development agendas.
- Participate in global campaigns including World Heart Day and Go Red for Women.
- Identify and recommend young leaders for WHF's Emerging Leader's programme.
- Access and input into CVD roadmaps created in partnership with experts, global members, supporters and other stakeholder. Receive technical support in their implementation.

Network

- Join WHF's global network of congresses and events.
- Share best practice and knowledge with the global cardiovascular health community.
- Access a suite of member led prevention and care assets.

Member engagement

- Support from a dedicated membership account manager.
- Participate in WHF member workshops and web conferences.
- Exclusive access to the WHF membership microsite and our quarterly member newsletter.
- Receive WHF's quarterly journal Global Heart.
- Receive three free place at the World Congress of Cardiology and Cardiovascular Health (WCC).
- Invite to nominate candidates and vote for WHF Board of Trustees.*
- Free consultancy from WHF's award winning partnerships team.*

** Available to full members only.*
